### VISO Climbing Helmet Orange

Climbing helmet from Skylotec. Can be used for countless activities including sports climbing, alpine climbing and via ferrata. Lightweight, 290-gram helmet that sits comfortably on the user's head and does not restrict the field of view. The helmet consists of 3 innovatively constructed layers. The outer layer is extra strong and protects against impact from above. The middle consists of EPS and is designed to improve stability and ensure comfortable head placement. The inner layer provides round ventilation. The size can be adjusted. The helmet has a headlamp clips to attach a headlamp, so it is possible to see something while climbing in the dark house.
